PRODUCT DATA SHEET (PDS)

COMET GRAPHITE GREASE

DESCRIPTION

Comet Graphite Grease is a premium quality grease thickened with calcium soap and fortified with functional additives to impart oxidation, rust, corrosion and friction resistance. Comet Graphite Grease provides maximum protection by adhering well to the lubricated bearing surfaces sealing them from dirt and abrasive contaminations.

APPLICATIONS

- Suitable for all plain bearing locks, latches and fasteners, cables and springs.
- Effective where there are extremely heavy loads but movement is small.
- All normal greasing applications in automotive, agriculture, construction and industrial.

FEATURES & BENEFITS

- Extremely high degree of water resistance.
- Excellent corrosion protection.
- Excellent shock loading Protection.

HEALTH AND SAFETY

Prolonged and repeated contact with grease may cause skin disorders. In case skin contact, wash immediately with soap and water. Do not discharge used oils in to drains or the environment. Dispose to an authorized used oil collection point.

NB: buckets and drums for greases should be stored upright and the surface of grease should be smothered to avoid separation always store on temperatures between -5 to 40 °c
