COMET CONNING OIL

DESCRIPTION

Comet Conning Oil is a specially formulated antistatic Conning Oil blended from high quality base oil for use in Textile Industry. This is highly refined light colored low viscosity mineral oil with appropriate dosage of emulsifiers, antistatic, friction reducing and anti-splashing agents to minimize the oil losses during conning and twisting operations. The texturized yarn manufactured with the help of antistatic conning oils can be used by weavers and twisters for making varieties of fabrics as end products. Comet conning oil is recommended as finishing agent during winding, texturizing and sewing threads for better unwinding.

HEALTH AND SAFETY

Prolonged and repeated contact with oil may cause skin disorders. In case of skin contact, wash immediately with soap and water. Do not discharge used oils into drains or the environment. Dispose of an authorized used oil collection point.

NB: Always store on temperatures between -5° C to 40° C

FEATURES & BENEFITS

- Excellent yarn to yarn and yarn to metal lubrication.
- Excellent Scour ability.
- Excellent pick-up quality as high as 1.5 to 5 % on wt .of yarn.
- Excellent Antistatic Properties.
- Excellent Stability of the product during storage of lubricated yarns.
- Low frictional properties, which ensure smooth running of the yarn in subsequent processing.
- Excellent penetrating properties, which ensure uniform oil, pickup throughout the package.
